

Description

O'MATIC STANDARD

For Moulding up to 1900 Products an hour

The O'Matic Standard is a free standing unit which mould and fill up to 1900 tarts or pies an hour. It will produce a wide range of shapes – round, oval, oblong, triangular, octagonal or boat-shaped...in tins, foils, hoops or ovenable board.

Available as a 4, 5 or 6 station machine, the O' Matic Standard will mould pies, flans or shortbread and when fitted with a KWF64 Wet filler deposit filling with tireless efficiency and accuracy.

With moulding, crimping, cutting, and filling all done on the same machine, wastage of time, effort and materials is reduced to the absolute minimum.
