

Care

that comes from the heart

Experience world-class travel with Philippine Airlines

Philippine Airlines (PAL) is the Philippines' flag carrier and the country's only full-service network airline. Founded in 1941, PAL is Asia's first commercial airline and has played a vital role in connecting the Philippines to the world for 85 years.

PAL's fleet of Boeing, Airbus, and De Havilland aircraft operate scheduled nonstop flights out of hubs in Manila, Cebu, Clark, and Davao to 29 destinations in the Philippines and 42 destinations in Asia, North America, Australia, and the Middle East. PAL also offers air cargo and charter services, while providing seamless connections throughout the nation and across the world. PAL is an APEX Four™ Star recipient and has achieved the highest on-time performance among Asia-Pacific carriers for 2025, according to Cirium.

Our Commitment to Sustainability

We aim to deliver a safe, reliable, efficient and pleasant travel experience to our customers while conducting our business in a sustainable and responsible manner.

Anchored on our corporate vision, purpose and Sustainability DNA, we have adopted a Sustainability Policy that outline our commitments towards attaining **net zero carbon emissions by 2050** in support of international agreements for climate action.

Manage our assets in a sustainable manner for increased productivity and efficiency

Source materials from local suppliers as far as practicable

Create mutually beneficial and lasting relationships with local communities

Ensure the safety of our passengers and employees

Provide continuous training to help our employees understand the environmental effects of our corporate actions and inspire them to adopt best practices to help build a sustainable future

Offer a variety of training programs to our personnel for their professional development

Reduce our carbon footprint, adopt innovations on energy and water conservation, lower food waste, and aim to seek sustainably sourced resources

Set periodic reviews of our sustainability policy, programs, records, as well as metrics and targets to drive continuous improvement
